To Whom It May Concern

RE: Boiler & Industrial Plant (Pty) Ltd

We are pleased to provide a reference letter for Boiler & Industrial plant. Boiler & Industrial Plant has been performing planned maintenance on the paraffin fired Boiler as well as our services, namely 6 monthly, yearly and Government prep from September 2009 to current. They also carry out upgrades, boiler repairs, both major and minor as well as retubes on our boiler.

We have found Boiler & industrial Plant and its staff to be very knowledgeable, professional, and co-operative throughout the duration of the job. They have been responsive and thorough in addressing all and any issues that have arisen out of the project.

We highly recommend Boiler & Industrial Plant as a service provider.

Kind Regards

Vikash Maharaj (Engineer)
